WORK EXPERIENCE

Softrams LLC - UX/UI Designer

Baltimore, MD | March 2019-Present

Led the research & design of [ACO-MS](#) app. Designed new modules on the existing system and worked with CMS clients and end users to establish product vision and MVP features. Collaborated with developers to make sure designs are implemented efficiently. Re-designing existing modules with new design system, also advocating for 508 compliance and clear UX writing. According to the [latest performance](#), ACO-MS had a record year in 2019, in which users saved \$1.2 Billion in Medicare as compared to \$739 in 2018.

Designed a file sharing and storing healthcare secure saas app ([Hdrive](#)) based on Google Material design. Validated design solutions by facilitating user personas, competitive analysis, wireframing, card sorting for requirement gathering, information architecture and high-fidelity prototypes.

Did qualitative research for high profile business contract, which resulted in a \$37 million shared savings program. [Click here!](#)

Designed an Android/iOS based app know as Hdrive Marketplace, which is used to check the drug coverage from Plan ID or Zipcode.

Carmaguys LLC - UX/UI & Web Developer Intern

Philedelphia, PA | July 2018-Dec 2018

Engaged with developers, product management, stakeholders to design appointment & scheduling based application for car service website. Designed from research to wireframe and creation of UI. Aligned products with design/accessibility guidelines.

Worcester Polytechnic Institute - IT System Admin

Worcester, MA | Jan 2017-Mar 2018

Designed e-newsletters for events using MailChimp. Managed computer systems, software, database, network and provided technical support.

General Seal Pvt Ltd - Associate UI Developer

Mumbai, India | July 2015-June 2016

Designed new features for e-Commerce website and improved the user Experience of the existing UI.
